projects**

**HANDS ON
LEARNING**

**100%
Placement
Assistance**

**CAREER
SUPPORT**

02 Course Highlights

4

Months of Intensive
Classroom Training

2

Months Hands-On
Internship with industry
Partners

AI

Tools Integrated in
Every Module

44+

Comprehensive Course
Modules Covered

Multiple Industry
Certifications Awarded

100%

Placement Assistance &
Career Support

Our Team

Haripriya Mehta
Co-Founder

Leads academic strategy and program development, ensuring industry-relevant curriculum and high-quality learning outcomes for students.

Vandana Taluja
Co-Founder

Drives strategic growth at Digicentrix with a strong focus on integrating digital skills into everyday education to create meaningful impact.

OUR PURPOSE

Mission

To empower students and professionals with industry-relevant designing skills, practical training, and career-focused programs, helping them become job ready and succeed in the modern digital economy.

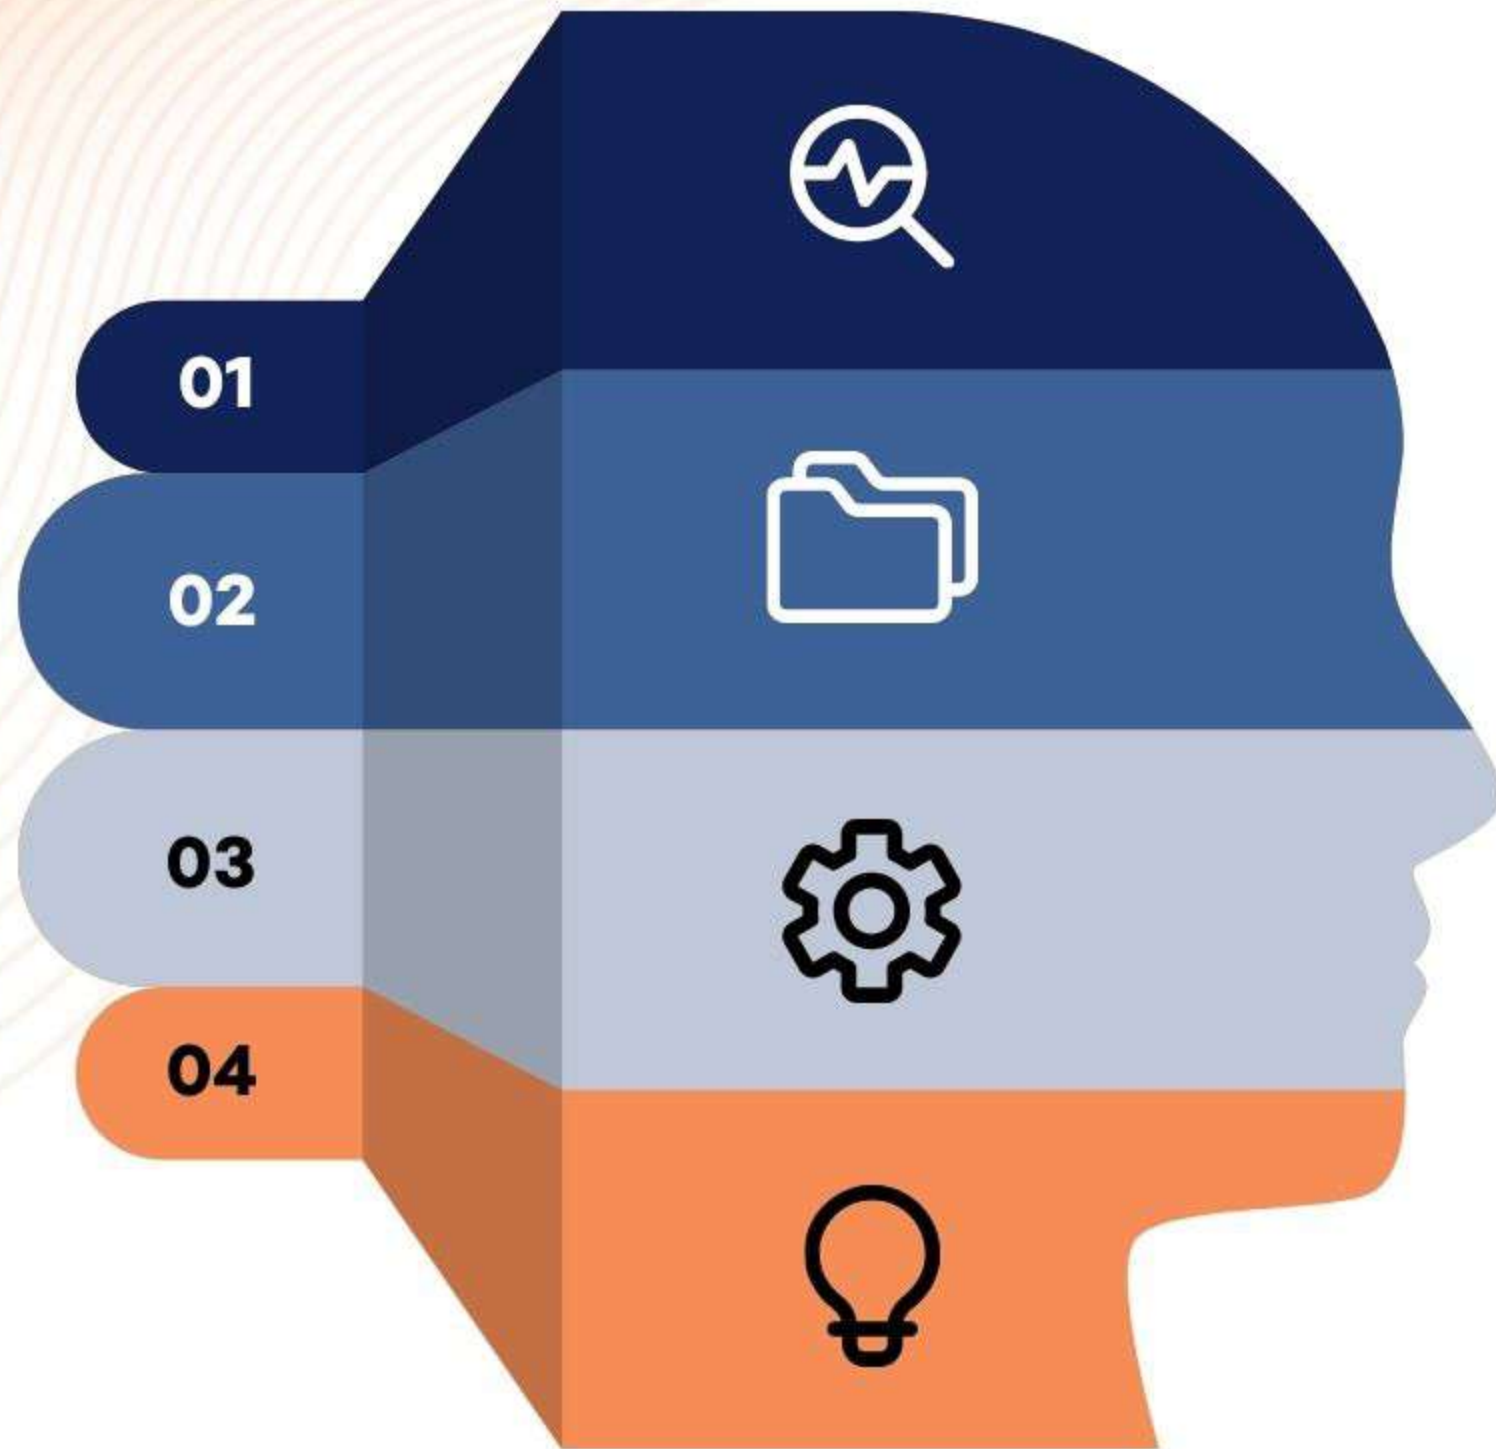

OUR DIRECTION

Vision

To become a leading designing skill development institute, transforming talent into highly skilled professionals and contributing to India's growing digital workforce bridging education and industry for future challenges

WHY UI/UX Designing?

HIGH MARKET DEMAND

- Projected 23% job growth in the next decade.
- Top in-demand skill globally.
- Diverse industries hiring: Tech, Health, Finance.

REMOTE & FREELANCE FLEXIBILITY

- Work from anywhere with internet.
- Work-life balance with flexible hours.
- Opportunities for contract and freelance projects.

LUCRATIVE CAREER PATH

- Competitive entry-level and senior salaries.
- Consistent income growth potential.
- High Return on Investment (ROI) for education.

IMPACTFUL PROBLEM SOLVING

- Directly improve users' digital lives.
- Solve real-world challenges through design.
- Combine creativity, psychology, and technology.

THE COURSE IS FOR

Who Should Join?

Whether you're starting fresh or levelling up , this program is built for

Students & Fresh Graduates

Seeking for job- ready digital design skills to kickstart a strong career

Beginner Friendly

Working Professionals

Looking to upgrade their skill set or shift into a design-focussed career.

Upskill & Transition

Career Break Professionals

Returning to the workforce with modern, in-demand UI/UX skills.

Relaunch Ready

Designers & Web Developers

Learning digital tools to grow designing skills and manage clients independently.

Grow Your Business

07 Career Prospects After Completion

● **UI/UX Designer**

● **UX Researcher**

● **Usability Tester**

● **Product Designer**

● **Web Design Specialist**

● **Design Consultant**

● **Interaction Designer**

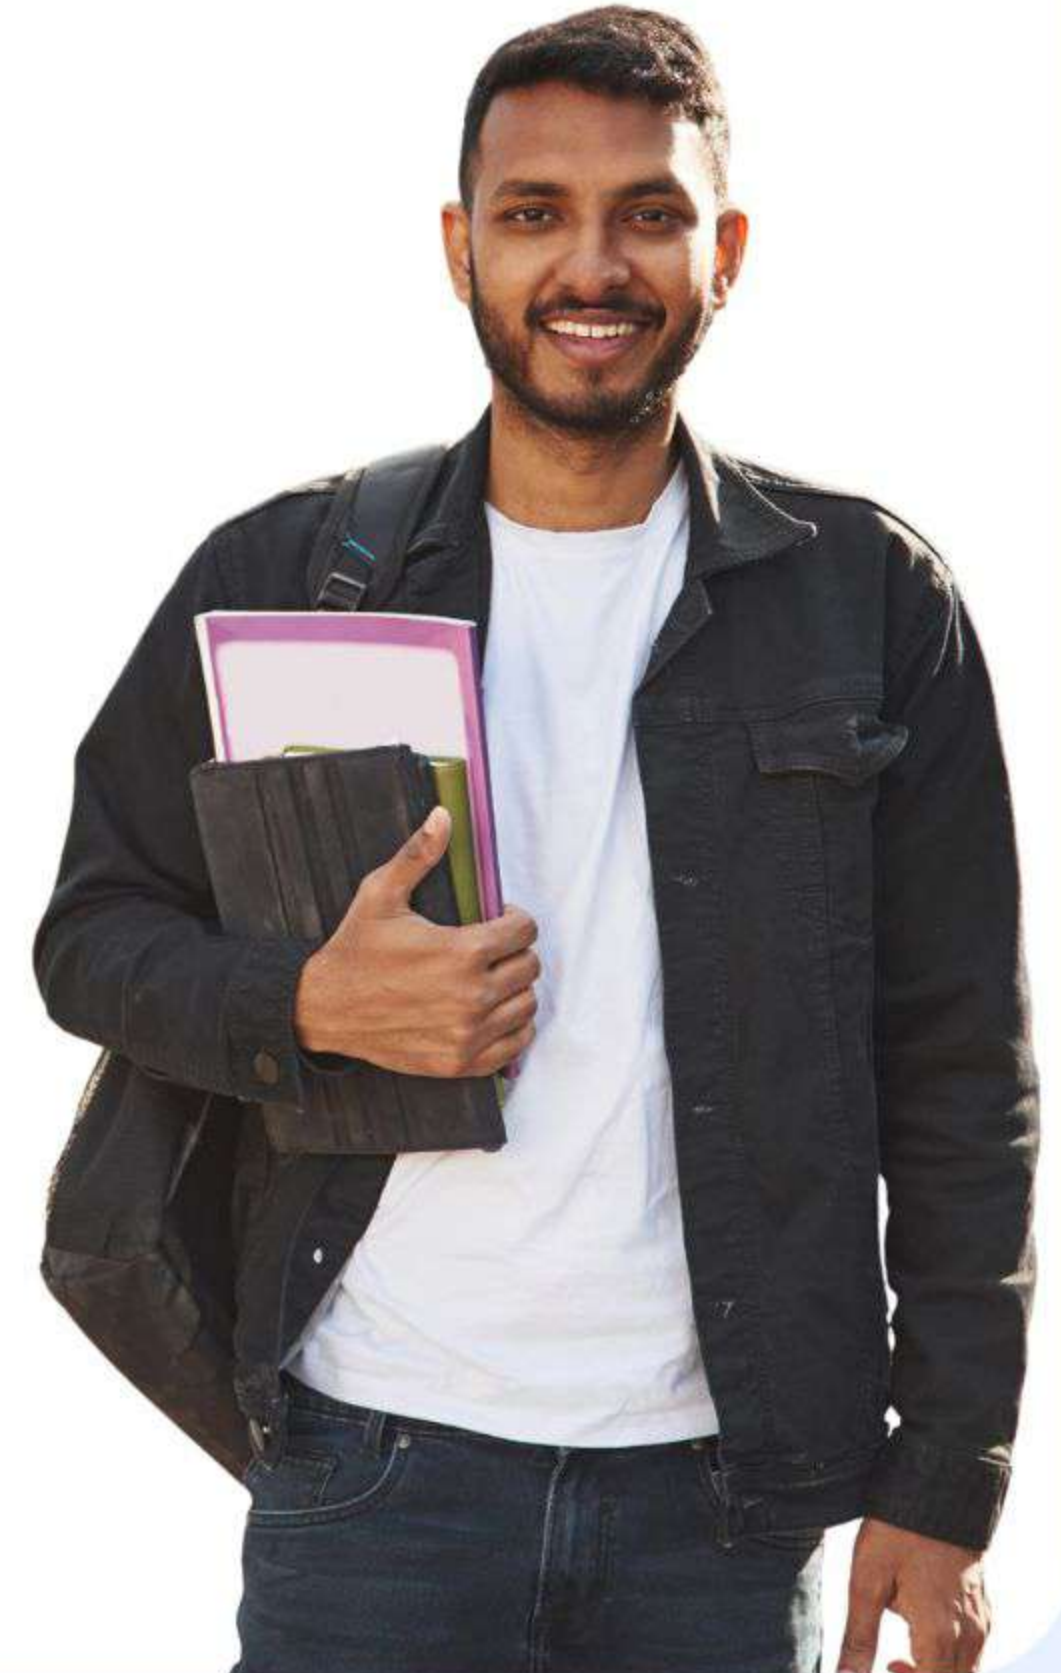

● **App Design Specialist**

● **Freelance UI/UX Designer**

● **Visual Designer**

● **Information Architect**

● **Designing Agency / Startup Owner**

Design Foundations

- 01** What is UI Design vs UX Design
- 02** Understanding Users and Digital Products
- 03** Design Principles
- 04** Design Principles
- 05** Typography Basics
- 06** Layout and Grid Systems

UX Fundamentals

- 01** What is User Experience (UX)
- 02** Understanding User Problems
- 03** User Research Basics
- 04** Creating User Personas
- 05** Affinity mapping
- 06** Customer Journey Mapping
- 07** Information Architecture
- 08** User Flow Creation
- 09** UX Laws (Hick's Law, Fitts Law etc.)
- 10** Problem Statement

Information Architecture & User Flows

- 01** Information Architecture
- 02** Card Sorting
- 03** User Mental Model
- 04** Task Flows & User Flows
- 05** Assignment: Create User Flow

Wireframing & Low-Fidelity Design

- 01** What are Wireframes
- 02** Low Fidelity vs High Fidelity
- 03** Sketching Interface Ideas
- 04** Layout Planning
- 05** Mobile vs Desktop Design
- 06** Creating Wireframes in Figma
- 07** Designing Simple User Flows

UI Design (Visual Interface Design)

- 01** Visual Hierarchy
- 02** Designing UI Components
- 03** Buttons, Forms, Cards, Navigation
- 04** Color Systems
- 05** Typography for UI
- 06** Spacing and Layout
- 07** Creating Modern UI Screens
- 08** Designing Mobile App Interfaces
- 09** Designing Website Interfaces

UX Fundamentals

- 01** What is Figma
- 02** Installing Figma
- 03** Understanding the Figma interface
- 04** Figma file structure (Files, Pages, Frames)
- 05** Importance of Frames in Figma
- 06** Shapes and vector tools
- 07** Text tool
- 08** Fill, stroke, and effects
- 09** Alignment and distribution

Layout Design Basics & Auto Layout in Figma

- 01** Creating layouts using frames
- 02** Layout guides
- 03** Spacing and alignment
- 04** Responsive resizing basics
- 05** Introduction to Auto Layout
- 06** Padding and spacing
- 07** Horizontal & vertical layouts
- 08** Hug contents vs fixed vs fill container
- 09** Responsive UI design with Auto Layout

Components & Design Systems

- 01** Design Systems
- 02** Consistency & Scalability
- 03** Assignment: Create Mini Design System
- 04** What are components
- 05** Creating components
- 06** Component instances
- 07** Component properties
- 08** Nested components
- 09** Component best practices

Prototyping in Figma

- 01** Introduction to prototyping
- 02** Interaction Design
- 03** Navigation flows
- 04** Overlay interactions
- 05** Smart animate
- 06** Prototype settings
- 07** Horizontal & vertical layouts
- 08** Hug contents vs fixed vs fill container
- 09** Responsive UI design with Auto Layout

Components & Design Systems

- 01** What is Usability Testing
- 02** Heuristic Evaluation
- 03** Identifying UX Problems
- 04** Collecting Feedback
- 05** Improving the Design
- 06** Iteration Process

Portfolio Creation

- 01** Creating UX Case Studies
- 02** Portfolio Building
- 03** Presenting Design Decisions
- 04** Preparing for UX Interviews
